Many teachers will post their daily/weekly lesson plans here.

Class Summary Edit Copy [↗](#)

Good Morning!
 Today our adventure begins! Each day I will post our daily lesson plan below in assignments (scroll down). It is easier for you if I put it there so you can print it out each day. I will leave each day up for the week in case you missed something. In the same area you will also notice many of your other documents for this week.

Try to follow the daily schedule so you are not overwhelmed. Make sure you take breaks, go for a walk, eat a snack, play outside. This is new to all of us and we will be learning together. Please be patient with me as I learn with you.
 Any assignments that need turned in will be highlighted. You may turn these in through your Office 365 account,

Class Summary is where videos, general directions, and maybe the daily schedule will appear.

The screenshot shows a 'Files' interface with a blue header bar. Below the header, there is a dropdown menu labeled 'Class Folder'. The main area contains a table with three columns: 'Description', 'File Name', and 'View'. The table lists four files:

At the bottom of the interface, there are navigation controls including arrows and a 'Files per page' dropdown set to '5'.

Teachers will be posting their assignments like this example. Some may post one day at a time, or one week at a time.

Each teacher's portal may look a little different. Your teacher will communicate with your class directly and let you know where their assignments and daily schedules will be posted.
